

WALK THE LINE PUG RANCH

Pug Emergency Evacuation Standard Pug Care Kit/s Items

WTL provides the above (2) Standard Pug Care Kits (Complete Pug Care Kits are Optional) with all of our Pug Puppies, and actually shares the costs with the Adoptive Parents ensuring that the pups are not only prepared for the basic first aid & general home care, but also this kit is a very important part of your Homes Emergency Evacuation Plan which now includes Pug... That said, please keep these kits intact after each use, replenish the contents asap after use, and keep the kits in a safe appropriate location within the home where they can be grabbed quickly on the way out... When taking the Pug along visiting friends, or family, or on vacation, etc., consideration should also always be given to having the kits readily at hand... In the event of an Emergency Evacuation, you will be able to sustain your Pugs basic general survival for at least a week even if you are not able to get to stores, fresh water sources, etc!!! A brief discussion in regard to the kits will be given at the adoption... Should you have any further questions regarding the contents use, etc., please contact WTL asap at your convenience...

Thank You, **WALK THE LINE**
